Highlights from the quarter:

- Consolidated net sales increased 6.0 percent to MXN 4,816 million.
- Consolidated EBIT and EBITDA margins were 12.8 and 15.7 percent, respectively.

Mexico City, Mexico, October 26, 2017 – Grupo Herdez, S.A.B. de C.V. (“Grupo Herdez” or the “Company”) (MSE: **HERDEZ**) today announced results for the third quarter ending September 30, 2017.

“Our performance in the third quarter remained positive despite the natural disasters that stroke our nation. The resiliency of our business model and our industry, together with the strategic measures and initiatives we are implementing, are allowing us to cope with the disruptions, while also prevailing during uncertain times. We remain confident about meeting our guidance for this year”, said Héctor Hernández-Pons Torres, Chairman and Chief Executive Officer.

NET SALES

Net sales in the third quarter increased 6.0 percent compared to the same period of last year to MXN 4,816 million. Net sales in the Preserves division grew 7.2 percent, showing a slowdown when compared to the first six months of the year. This is explained by the distribution disruptions as a consequence of Mexico’s earthquake and floods that affected several regions of the country.

The information contained in this document is prepared in accordance with International Financial Reporting Standards (IFRS) and expressed in nominal Mexican pesos unless otherwise stated.

Grupo Herdez consolidates 100 percent of its Frozen division, Herdez Del Fuerte -Mexico-, Barilla Mexico and McCormick de Mexico in its financial statements. The proportional stake of Herdez Del Fuerte in MegaMex is registered in Equity Investment in Associates.

The Frozen division reached MXN 753 million in sales, 4.3 percent higher than the third quarter of 2016. This slight increase was due to the strong sales in Helados Nestlé recorded in the third quarter last year, as well as extreme cold climate conditions that occurred this quarter. Nutrisa sales in September were affected by the temporary closure of 30 stores and lower traffic following the earthquake. Despite the above, same-store sales in the quarter increased by 12 percent mainly driven by traffic in July and August.

Exports reached MXN 323 million, 2.6 percent lower than the same quarter of last year due to the soft performance among our client base, excluding MegaMex.

Net sales outperformed in the modern channel formats, despite inventory adjustments at certain clients. Volumes in the traditional channel were affected by fleet shortages due to operational disruption resulting from the earthquakes. By category, canned vegetables, homestyle salsa, pasta, tea and tomato purée sales surpassed average growth boosted by price increases and innovation initiatives.

On a cumulative basis, consolidated net sales rose 9.0 percent to MXN 14,500 million, primarily driven by price increases and the solid performance of the Frozen segment.

GROSS PROFIT

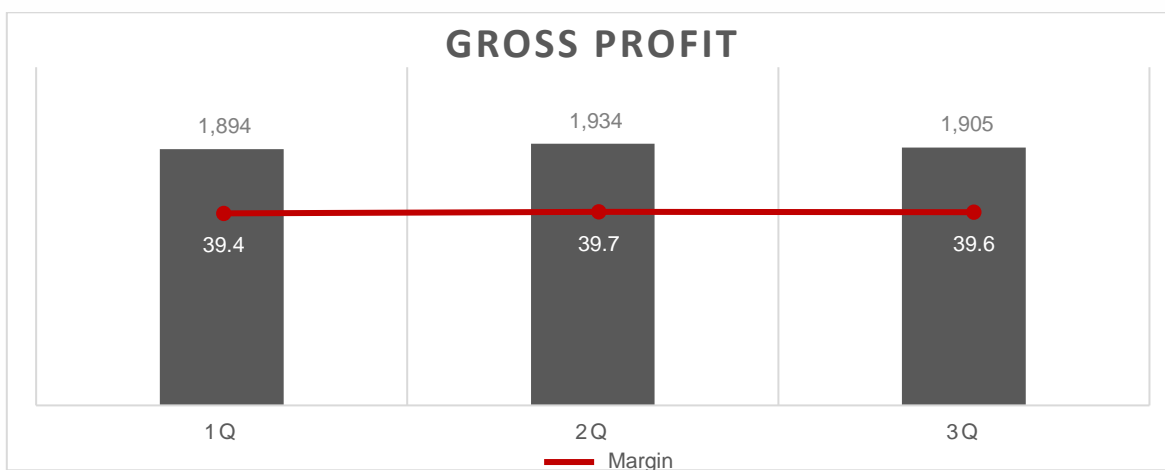

Consolidated gross margin in the quarter reached 39.6 percent, a 0.9 percentage point decline when compared to the same period in 2016. This decline resulted from the impact of higher costs in raw materials and packaging, coupled with a higher U.S. dollar exchange rate.

On a cumulative basis, the consolidated gross margin reached 39.5 percent, a 30 basis points increase when compared to the same period last year due to the margin expansion of the Preserves segment in the first half of the year.

SALES, GENERAL AND ADMINISTRATIVE EXPENSES (SG&A)

Consolidated SG&A relative to net sales reached 27.0 percent in the quarter compared to 26.6 percent in the same quarter last year. This margin difference resulted from a 40 and 70 basis points increase in the Preserves and Frozen segments, respectively, due to extraordinary expenses related to the earthquakes. These extraordinary expenses involved the need to change routes and delivery routines in order to serve our main clients directly to their stores and the temporary closing of Nutrisa stores in the days following the earthquakes.

On a cumulative basis, SG&A represented 26.2 percent of net sales, a 60 basis points improvement from the same period of last year mainly explained by the SG&A reduction at Nutrisa.

EARNINGS BEFORE INTEREST AND TAXES (EBIT)

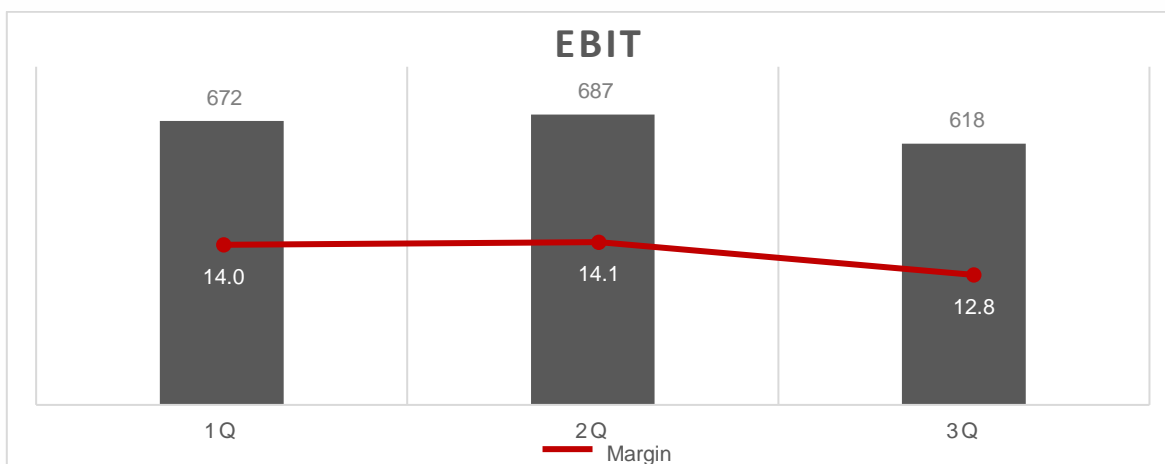

EBIT in the quarter totaled MXN 618 million, with a margin of 12.8 percent, or 1.1 percentage points lower than the same period in 2016. EBIT margins in the Preserves and Frozen segments decreased by 1.6 and 0.7 percentage points, respectively, mainly due to the extraordinary expenses explained previously.

On a cumulative basis, EBIT totaled MXN 1,976 million or an 18.1 percent growth when compared to the same period last year, with an EBIT margin expansion of 1.0 percentage points to 13.6 percent.
